

# Airman II™

1/2 HP BELT DRIVE GARAGE DOOR OPENER

## For Quiet and Durable Performance

Driven by a powerful 1/2 HP belt drive motor, the Airman II provides quiet, reliable performance. Designed for those who want an excellent combination of value and functionality, plus the everyday dependability of a Raynor residential opener, the Raynor Airman II has all the tools it needs to get the job done. With a four year motor and 10 year belt warranty, you are assured maximum performance day-in and day-out.

### MyQ®

MyQ technology enables you to securely monitor and control your garage door opener with your smartphone, tablet or computer. Alerts can be received as email or pop-up (push) notifications on your mobile device, so that you always know the status of your garage door. The Internet Gateway is required to make your Airman II MyQ ready. MyQ mobile app is a free download requiring no annual activation fee.

### Sensing Technology

With sensing technology, your door will stop closing if contact is made with a person or object.

### Security+®

Be sure your garage is safe from intruders. Rolling code technology assures a new code is sent every time the remote control is used.

**Standard Series**

## Safety, Security and Performance

### Sensing Technology

The Airman II has sensing technology that is designed to keep you safe. If contact is made with a person or object while the door is closing, the door will stop, helping to prevent any injury.

### Posilock®

Ensures the door remains securely locked when it is closed.

### 1/2 HP Motor + Belt Drive

A 1/2 HP motor and enhanced belt drive provide quiet and durable performance.

## Standard Accessories

### Multi-Function Control Panel (882 RGD)

Our Multi-Function Control Panel operates the garage door opener and lights on your Airman II. It also allows for fast, easy programming of accessories with the new learn button.

### 1-Button Remote Control (891 RGD)

This one button remote control is equipped with Security +2.0™ technology that virtually eliminates radio wave interference. This feature makes it nearly impossible for burglars to capture your transmitter code.

### Protector System® Photo Eyes

Project an invisible beam across the door opening. If any object breaks the light beam while closing, the door will stop and reverse direction to full open position.

## Optional Accessories

### Internet Gateway MyQ (828 LG)

Required to connect your MyQ-enabled garage door opener and accessories to the Internet. Internet Gateway MyQ allows you to monitor and operate your garage door opener or gate operator, or turn on or off lights in or around your home, from anywhere in the world by using your smartphone or computer. It utilizes a two-way communication system that puts freedom and control in your hands.

### HomeLink® Compatible (855 LM)

The in-vehicle universal remote control. The HomeLink System may require the HomeLink Repeater Kit on some vehicle makes and models. Please contact Raynor Customer Service for details.

### Max Keyless Entry (877 MGX)

Opens and closes your door when you enter a 4-digit code. Enter a temporary code that allows guests and service people temporary access with a specific number of activations for a chosen length of time.
