

Corporal II™

1/2 HP CHAIN DRIVE GARAGE DOOR OPENER

For Reliable Performance

Driven by a powerful 1/2 HP chain drive motor, the Raynor Corporal II provides lasting performance and dependable operation. Designed for those who want an excellent combination of value and functionality, plus the everyday dependability of a Raynor residential opener, the Raynor Corporal II has all the tools it needs to complete its mission. With a four year motor warranty, you are assured maximum performance day-in and day-out.

MyQ®

MyQ technology enables you to securely monitor and control your garage door opener with your smartphone, tablet or computer. Alerts can be received as email or pop-up (push) notifications on your mobile device, so that you always know the status of your garage door. The Internet Gateway is required to make your Corporal II MyQ ready. MyQ mobile app is a free download requiring no annual activation fee.

Patented Technology

Patented Technology detects when a door spring breaks, triggering the motor to reverse the door to the open position.

Security+

Be sure your garage is safe from intruders. Rolling code technology assures a new code is sent every time the remote control is used.

Standard Series

Safety, Security and Performance

Sensing Technology

The Corporal II has sensing technology that is designed to keep you safe. If contact is made with a person or object while the door is closing, the door will stop, helping to prevent any injury.

Posilock®

Ensures the door remains securely locked when it is closed.

1/2 HP Motor + Chain Drive

Combined with the industrial-duty chain, the 1/2 HP Motor provides steady performance and lifting power.

Standard Accessories

Multi-Function Control Panel (882 RGD)

Our Multi-Function Control Panel operates the garage door opener and lights on your Corporal II. It also allows for fast, easy programming of accessories with the new learn button.

1-Button Remote Control (891 RGD)

This one button remote control is equipped with Security +2.0™ technology that virtually eliminates radio wave interference. This feature makes it nearly impossible for burglars to capture your transmitter code.

Protector System® Photo Eyes

Project an invisible beam across the door opening. If any object breaks the light beam while closing, the door will stop and reverse direction to full open position.

Optional Accessories

3-Button Mini Remote Control (890 RGX)

This powerful multi-door control can operate 3 garage doors, gates or MyQ-enabled lighting accessories. Plus, multi-frequency Security+ 2.0™ technology virtually eliminates interference.

Internet Gateway MyQ (828 LG)

Required to connect your MyQ-enabled garage door opener and accessories to the Internet. Internet Gateway MyQ allows you to monitor and operate your garage door opener or gate operator, or turn on or off lights in or around your home, from anywhere in the world by using your smart-phone or computer. It utilizes a two-way communication system that puts freedom and control in your hands.

Max Keyless Entry (877 MGX)

Opens and closes your door when you enter a 4-digit code. Enter a temporary code that allows guests and service people temporary access with a specific number of activations for a chosen length of time.

Visit your Raynor Dealer for additional options and accessories.
